PITTSBURGH, PA.

58 E. WASHINGTON STREET,
CHICAGO, ILL.

230 FIFTH AVENUE
NEW YORK CITY

161 SUMMER STREET
BOSTON, MASS.

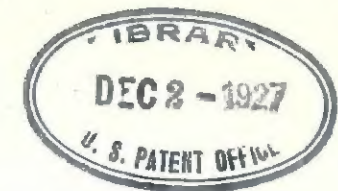

FACTORY
MONACA, PENNA.

LIGHTING GLASSWARE serves a twofold mission of usefulness—first by adding beauty to the decorations and then by properly shading the sources of light. In order to insure proper diffusion of light we have used our best white diffusing glass as a basis for all shades and enclosing units shown in this catalogue.

The same high standard of decorative treatment and fine craftsmanship that has always been a part of Phoenix Glassware is maintained in this new series of designs for the home and the display room.

Tints and shades of those colors which harmonize have been merged and blended into a series of dainty and artistic decorations. Each design is clear in detail, true in color, and correct in proportion. These three distinguishing qualities would justify a feeling of confidence and pride when displaying this glassware in your showrooms.

ETCHED GLASSWARE

EMBOSSSED ADAM ETCHED—The design, toned a soft shade of brown, stands out in pleasing relief against the white mat background of the glass.

ENGRAVED ADAM ETCHED—The background and not the design is toned in brown. It is very effective where a warm subdued illumination is desired.

EMBOSSSED MAGNOLIA ETCHED—

ENGRAVED MAGNOLIA ETCHED—No applied color is used in emphasizing the design. The design detail, either when Engraved or Embossed Etched, shows up in a very delicate gray shade especially appealing when lighted.

LIGHT ETCHED—Soft colors are used as a background with the design detail showing in the white color of the glass.

A slogan becomes valuable to an industry in proportion to the advertising it receives.

Let's advertise—
